PEACHTREE'S MAHOGANY COLLECTION BRINGS CLASSIC APPEAL TO FRONT ENTRIES

MOSINEE, Wis., — Peachtree[®] Doors and Windows has unveiled its Mahogany Collection of textured fiberglass entry door systems as part of its all-new entry door line. The stunningly rich wood-grain door complements many architectural styles, provides superior energy efficiency and assures security.

“In developing our new entry door line, we knew mahogany-textured doors would be a welcomed addition,” said Jeff Kibler, Peachtree’s brand manager. “The Mahogany Collection has a sophisticated, upscale appearance whether it’s a traditional six-panel door or a 3/4-oval view with decorative glass.”

The Mahogany Collection is available in seven 6’8” tall panel styles, including 3/4 oval, four-panel eyebrow, six panel and six panel with top lite. Configurations include: in-swing and out-swing single and double doors (center-hinged or side-hinged), with single or double venting or non-venting sidelites, or a double door with two fixed panels. For additional design detail and sunlight, transoms are available in rectangular, elliptical, half circle, extended leg eyebrow and extended leg half circle shapes with clear insulated glass or decorative glass to match the door panel. Convenient, yet inconspicuous, retractable screens can be added to in-swing doors.

The exterior frames of the Mahogany Collection are available in primed wood, stain-grade wood (pine or mahogany), aluminum cladding in one of nine standard colors or 46 designer colors, vinyl cladding in white or tan, or white fiberglass. Primed or stain-grade interior frames can be prefinished in white or stained to match the door panel. Durable enamel factory finishes include: Classic White, Ivory, Pebble Tan, Obsidian, Dark Bronze, Brick Red, Forest Green, Sierra Brown, Indigo and 300 Series Tan. The plush mahogany-grain texture can be enhanced with stain finishes in Moorish Teak, Rose Wood, Dark Mahogany, Natural Teak, Provincial and Golden Oak. Simulated Divided Lite (SDL) grilles also can be stained or painted

(more)

to match the door panel. Homeowners can choose to have one side of the panel finished, or both, and a panel can be stained on one side and painted on the other.

Tempered clear insulated glass is standard on entry doors, with clear glass upgrade options that include Zo-e-shield™ 5 and 6, which provide superior U-factors and solar heat gain coefficients compared with Low-E² glass and the added convenience of EasyCare® glass on the exterior lite. For added flair, Mahogany Collection door panels and sidelites are available with a choice of eight decorative glass patterns. The elaborate and distinctive glass designs include classic geometric, floral, wrought-iron and prairie-style designs.

For homeowners who prefer clear glass, SDL, Grilles-Between-The-Glass (GBG) and Optically Divided Lites (ODL) are available for subtle enhancements. Peachtree also offers completely dust-free and maintenance-free Blinds in the Airspace.

In addition to the Mahogany Collection, Peachtree's new entry door line includes the Rustic Collection, the Craftsman Collection, and the Oak and Smooth Collection of fiberglass doors. Steel and fire-rated doors are also practical options for builders and homeowners.

Foundational Components

All of the new entry door systems are available with Peachtree's continuous head, sill and frame system. The single frame system is easier to install and reduces susceptibility to air and water infiltration. Peachtree's exclusive composite sill contains no wood, guaranteeing years of trouble-free use and no potential of rot. It is available in fixed, adjustable, high performance and ADA-compliant styles.

The polyurethane core of all Peachtree entry doors delivers six times the energy efficiency of a wood door and also provides greater durability with less maintenance. The doors are completely CFC-free to help preserve the earth's ozone layer.

Hardware

Every Peachtree entry door frame is equipped with steel strike-plate reinforcements to guard against forced entry. For added security a stainless steel multi-point locking system is available. Multi-point handle sets are available in either a Classic Curve or Contemporary style. All are available in seven lush finishes: Polished Brass, Antique Brass, Oil-Rubbed, Brushed Nickel, Polished Chrome, Brushed Chrome and White. In addition to durable standard hinges,

(more)

Peachtree entry doors are available with mortised adjustable hinges, spring-loaded hinges and commercial ball bearing hinges.

About Peachtree
