## PEACHTREE 700 SERIES BEAUTIFULLY EMBODIES CRAFTSMANSHIP AND PERFORMANCE

**MOSINEE, Wis.**, — Discriminating custom builders and homeowners gravitate to the 700 Series from Peachtree® Doors and Windows for its master craftsmanship, excellent energy efficiency and host of design-rich options. The combination makes the 700 Series an appealing choice for many custom homes.

“We don’t compromise quality or beauty on the 700 Series,” said Jeff Kibler, Peachtree brand manager. “Premium components – select wood, energy-efficient glass and dependable operating systems – are the foundation for every 700 Series window or patio door. Hardwood interiors, Simulated Divided Lites, an unlimited clad color palette and other versatile options ensure an upscale look inside and out.”

The 700 Series has primed or low-maintenance extruded aluminum clad exteriors. Clad exteriors are available in any color in the spectrum with its eight standard exterior colors, 47 designer colors or custom-color-matching capabilities. The standard colors are Classic White, Ivory, Pebble Tan, Forest Green, Sierra Brown, Brick Red, Dark Bronze and Obsidian. Factory-applied exterior aluminum-clad trim is available in five styles for a distinctive finishing touch.

Interiors on the 700 Series are available in standard pine or distinctive hardwood options of oak, maple, alder, cherry or mahogany. Any of the species can be primed or prestained in Clear Satin, Golden Oak, Fruitwood or Chestnut.

The 700 Series is available in easy-tilt double hung, double slider, casement, awning, specialty-shaped, and custom-shaped windows, in sizes up to 50 square feet, in 1/4” increments. Casement windows are available in monumental heights as large as 7’6”. Patio door offerings include single- and multiple-panel configurations in traditional narrow stile and French stile sliding doors; and center-hinged, French in-swing and out-swing doors.

(more)

Easy-tilt double hung units feature block-and-tackle balance systems that keep sash from sticking, binding or falling. An integral finger lift eliminates the need for screwed-on hardware. Recessed locks and concealed keepers ensure a weather-tight seal and clean sightlines.

Casement and awning units are available in mulled and stacked configurations to create striking combinations. Graceful bow and bay windows can be formed with multiple-wide casements. Single-throw, multi-point locks are convenient and secure, keeping intruders and the weather at bay. Dependable metal operators ensure the windows open and close smoothly.

All 700 Series doors feature classic beauty, quality and security, and can be tailored to an individual style with their many options. A classic raised panel design is offered on any of the doors; French hinged doors are available in radius top configurations. The standard door panel is 1-3/4"; a premium 2-1/4" panel on hinged styles offers greater stability. Transoms in a variety of shapes and fixed sidelites extend the presence of any patio door.

Grilles for the 700 Series are available in several stylish options: Simulated Divided Lites (SDL), 5/8" flat or 3/4" profiled Grilles-Between-The-Glass (GBG), Interior Snap-In Wood Grilles or Optically Divided Lites (ODL). SDLs and GBGs can be color matched to the unit's exterior.

A 3/4" insulated glass with a Real Warm Edge<sup>®</sup> Spacer system is standard on all 700 Series windows and doors. For optimal energy efficiency, homeowners may elect Zo-e-shield<sup>™</sup> 5, or Zo-e-shield 6 for patio doors, both providing superior U-factors and solar heat gain coefficients. Low-E<sup>2</sup> with argon-filled airspace, or EasyCare<sup>®</sup> Low-E<sup>2</sup> Glass, which resists dirt and water spots, are also available.

Peachtree's whole house offering is complete with entry door systems in a variety of textures, finishes and panel styles. Peachtree's new entry door line includes the Mahogany, Rustic, Oak and Smooth collections of fiberglass entry door systems, and the steel and fire-rated entry door systems.

### **About Peachtree**

Peachtree Doors and Windows has been manufacturing millwork products since 1959. Headquartered in Mosinee, Wis., Peachtree manufactures and markets wood windows and patio doors, and steel and fiberglass patio and entry door systems. Products are sold nationwide through home improvement retailers and building materials dealers.
