## **PEACHTREE INTRODUCES EASYCARE LOW E GLASS TO KEEP WINDOWS CLEANER, LONGER**

**Norcross, Ga.** — Peachtree® Doors and Windows, dedicated to providing consumers with high quality doors and windows offering easy living features, announced today that it will offer EasyCare™ Glass as the standard glass in its new 500 and 700 Series products. EasyCare will be available as an option on the 300 Series products.

EasyCare Glass has an exterior coating that resists dirt and water, keeping windows cleaner longer. EasyCare Glass is low maintenance, easy living glass that is an enhancement to Peachtree's high-performing Low-E ¾" insulated glass. The coating on the exterior of the glass surface makes the glass hydrophilic, or smoother than regular glass. This causes water to sheet off the glass, reducing water spots. When windows do have to be cleaned, EasyCare glass is easier to clean with less streaking.

"EasyCare is a wonderful complement to our already strong product lines," said Chris Brown, brand manager. "EasyCare's high quality, ease of use and ability to keep windows cleaner longer support Peachtree's promise of delivering easy living products."

The insulated glass now also features a standard ¾ " warm-edge spacer system that delivers excellent thermal performance while reducing stress cracks and seal failures.
